OWSD Early Career Women Scientists Fellowships

Examples of appropriate industry or private sector organizations for collaboration

A distinct feature of the ECWS fellowship is to promote research collaboration between academic scientists and industry to develop innovations for more inclusive economies and societies.

Please find below a list of the type of industrial or private sector organizations that you may wish to collaborate with:

- A private-sector, for-profit organization that is doing Research and Development (R&D)
- A private-sector, for-profit organization that is doing R&D and is not incorporated, but is wholly owned by one of the ECWS eligible countries
- A utility or hydro company in one of the ECWS eligible countries
- A start-up/spinoff company in one of the ECWS eligible countries with its own research facilities and technical staff that are separate from the university
- A foreign company in one of the ECWS eligible countries (as long as sufficient opportunities will be provided for interaction between the fellow and the company)
- An organization that represents a group in one of the ECWS eligible countries enterprises or producers (federations of industries, chamber of commerce)
- Consulting firms, engineering firms and other enterprises in one of the ECWS eligible countries that do not have production facilities
- A government-owned organization in one of the ECWS eligible countries, operating as a regular for-profit enterprise, or on a cost-recovery basis
- A not-for-profit organization based in one of the ECWS eligible countries
- A social enterprise based in one of the ECWS eligible countries
